Rocky is renowned for its wildlife, and wildlife viewing is a favorite of many visitors. Help protect them by not attracting wildlife, including black bears, to your campsite due to improperly stored food. Bears can visit any time of day.

Never leave food items unsecured or unattended, day or night. No food nor toiletries should be kept in tents. Improperly stored or unattended food items will result in a violation notice. "Food items" include food, drinks, toiletries, cosmetics, pet food and bowls, and odoriferous attractants. Garbage, including empty cans, food wrappers, etc., must be stored or disposed of in trash or recycling receptacles. Hummingbird feeders and bird feeders are attractants for wildlife such as raccoons, elk, deer, and bears, and are not allowed in campgrounds. Coolers, dirty stoves, grills, non-disposable tableware and cookware must be washed and stored in the

same manner as food (do not place hot grills in food storage lockers). Camp kitchens must be kept clean and individual items properly stored.

In campgrounds, store all food items in food storage lockers; location symbols are on campground maps. Food storage lockers, which are approximately 3 ft x 4 ft x 3 ft are shared with other visitors and cannot be locked. If full, store food items:

- Inside vehicle trunks; be sure windows are closed and doors are locked, or
 - In vehicles without trunks, items should be placed as low in the vehicle passenger compartment as possible and covered from sight, with windows closed and doors locked
- Visitors with convertibles or motorcycles should use food storage lockers.
